BSDCan Thursday 2026-06-18: Tutorials and DevSummits

[illegible]

BSDCan Friday 2026-06-19: Talks

	DMS 1110	DMS 1120	DMS 1130	DMS 1160	DMS lobby	U90 & Other	
08:00						08:00 - 18:00	
					08:30 - 11:00		
09:00							
	09:45 - 10:35	09:45 - 10:35	09:00 - 09:30	Opening plenary	Breakfast & Registration pick-up		
10:00	Using Coverity Scan for static code analysis in NetBSD Emmanuel Nyarko	OpenBSD and Temporary Blindness Sean Howard	09:45 - 10:35				Running Stock FreeBSD on Windows Subsystem for Linux 2 Balaje Sankar
11:00	11:00 - 11:50	11:00 - 11:50	Quiet room	11:00 - 11:50			Hacker lounge at U90 (24 hrs)
	Heterogeneous Scheduling on FreeBSD Minsoo Choo	Evolving a FreeBSD-Based Chaos Engineering Platform for Teaching Andreas Kirchner, Benedict Reuschling		Low friction temporary VMs on FreeBSD Martin Vahlensieck			
12:00	12:00 - 13:00	12:00 - 13:00		12:00 - 13:00	12:00 - 13:15		
	Surviving GSoC A.I. Hell BoF Andrew Cagney	Agentic AI Coding BoF David Maxwell		Audio BoF Michael Williams	Lunch		
13:00							
	13:15 - 14:05	13:15 - 14:05		13:15 - 14:05			
	FreeBSD Implementation of the SMT transport protocol Eugenio Luo	BSD Iterative Infrastructure with ZFS and Zelta: From Battle-Tested Backups to Zero-Cost Iteration Daniel Bell		OpenNTPD - 20 years and a few milliseconds later Henning Brauer			
14:00					14:00 - 17:00		
	14:30 - 15:20	14:30 - 15:20		14:30 - 15:20	Coffee, tea, juice, soft drinks, water		
15:00	geomman: Bringing GParted-like Partition Management to FreeBSD Braulio Rivas Abad	Migrating from VMWare to FreeBSD bhyve Sarder Kamal		What has (can) the EU Cyber Resilience Act done (do) for you? Peter Hansteen			
16:00	15:45 - 16:35	15:45 - 16:35		15:45 - 16:35			
	Geographically fault-tolerant SSH on OpenBSD Rob Keizer	How Hard Could It Be? Modernizing XigmaNAS for OpenZFS 2.4.0 Ken Wong		How FreeBSD 15 landed Colin Percival			
17:00							
18:00						(continued ↓)	

BSDCan Saturday 2026-06-20: Talks

	DMS 1110	DMS 1120	DMS 1130	DMS 1160	DMS lobby	U90 & Other
09:00					09:00 - 11:00	09:00 - 17:30
10:00	09:45 - 10:35 Model Checking in BSD Userland and Kernel Justin Handville	09:45 - 10:35 BSD as a Foundational Platform for Nationwide Semiconductor Education in Japan Hiroki Sato	09:45 - 17:15 Quiet room	09:45 - 10:35 ZFS AnyRAID: Flexible Disk Layout Allan Jude	Breakfast	Hacker lounge at U90
11:00	11:00 - 11:50 Through MAC and Back Kyle Evans	11:00 - 11:50 Supporting hibernate (S4) on FreeBSD Olivier Certner		11:00 - 11:50 NetManager - Building products with NetBSD round 2 Stephen Borrill		
12:00					12:00 - 13:15	
13:00				12:30 - 13:00 Lightning talks	Lunch	
	13:15 - 14:05 Escaping Plato's Cave with Software Freedom: A Classical Greek Symposium with Fred, Puffy, and Beastie Corey Stephan	13:15 - 14:05 Return of the Segment: Thread Local Storage John Baldwin		13:15 - 14:05 Getting Extended Error Messages from the FreeBSD Kernel Marshall Kirk McKusick		
14:00					14:00 - 18:00	
	14:30 - 15:20 What happens when you write to /dev/null Martin Vahlensieck	14:30 - 15:20 Community Event Organizing Michael Dexter		14:30 - 15:20 Bringing memory safety to BSD with CHERI Brooks Davis	Coffee, tea, juice, soft drinks, water	
15:00						
16:00	15:45 - 16:35 Universal Flash Storage on FreeBSD Jaeyoon Choi	15:45 - 16:35 A Two-Step FreeBSD Installer: Current Status and Future Plans Alfonso Sabato Siciliano	15:45 - 16:35 pkgbase in Production: A Practical Overview Lukas Engelhardt			
17:00				16:45 - 17:15 Closing session		
18:00						18:00 - 21:30
19:00						Closing Reception Luxe Bistro 47 York Street
